

This reading list is a bit different from many you have seen in the past. The books on this list are ones we wish we had been able to share with you this year. In other words, this is a part of the library's "wish list" to purchase. All of the included books have been well-reviewed and are among the best books out there for young adults in the past three years. We hope you will find the books (at the public library or at a book store) and find the time to read some of them this summer. And if you do buy the book and enjoyed them and would like to pass them on, we would be happy to have you donate them to the library. Happy reading this summer from the Soquel High School Library!
